Improve Your Processing

Are you looking for an easier way to handle your incoming mail?

Whether it's processing checks, orders, remittance pieces or daily incoming mail, our letter openers enable you to manage the process simply and seamlessly.

Our IM series has been designed to handle the key stages of incoming mail, from letter opening to distribution. Our different solutions help you handle envelopes of different sizes and thickness and extract documents.

Entry Level

IM-16

The IM-16 is easy to use and ideal for cost-efficient companies.

IM-19

The innovative high-speed IM-19 model handles up to 8,000 envelopes per hour and protects contents from being cut or damaged.

Mid Level

IM-22

IM-27

- The IM-22 and IM-27 are equipped with **feed belts**, allowing the machines to separate mixed mail more efficiently.
- A **separator** ensures all envelopes are separated before entering the milling cutter.
- The **multifunctional touchscreen** includes three different feed settings and the simplified roller design ensures lower servicing costs.
- The **On Delay feature** helps separation of mixed mail, avoiding jams.
- The **On Demand feature** allows the operator to extract the content while the next envelope is being opened, enabling easier processing. These features make the machines unique.
